

# Christoph Lensing Clinics

---

## Who

Christoph Lensing is one of the most sought after clinicians in the world. As a former vaulter in the years between 1987 and 1996, Christoph won the World Vaulting Cup 3 times and came in second twice. He won the European Championships 3 times and came in second once. He won the German National Championships 4 times and came in second 6 times. He is one of the most renowned vaulters of our times because of his skill but also his dedication to the sport. Since the end of his active vaulting career, he has coached many individual vaulters from different countries to the highest levels as well as coaching international teams. He is also a practicing physical therapist and a well known designer of innovative surcingles. We feel very privileged to be able to work with and learn from such a recognized clinician. One of the things we appreciate the most about Christoph is his passion for the sport and his ability to transmit to even young vaulters the mechanics as well as the fun involved in vaulting.
